There's Real Satisfaction in Looking at a Good Crop and . . .

MORE PROFIT, TOO!

ORDER *Your Clovers, Alfalfas and Grasses . . . TODAY!*

AND GET SATISFACTION . . . *LIKE THIS!*

High-quality seed (like we have for you right now) is scarce this year. But we want you to know that Hoffman Seeds are the same high quality they have always been . . . and you can depend upon them to grow good crops (and you want good crops). High Quality in seed counts. And it's just as true with Grass seeds as it is with Oats, Corn, Barley, Soy Beans, Potatoes, and all the other farm-crop seeds! Sow Hoffman Seeds and grow better-paying crops!

YOU CAN DEPEND UPON *Hoffman's*

HEAVY-CROPPING **RED CLOVER**

Take your choice, the home-grown U. S. Verified seed, or the North European seed . . . and in either case you get the very top-quality seed. Many folks have sown only the home-grown seed through all these 38 years. In several past years when home-grown seed was short, many other folks got good hay and pasture from their North European seed. Where planted for seed-production, authorities insist on sowing the home-grown seed.

Cleaned and recleaned, until as nearly perfect as seed can be . . . is Hoffman's Extra-Quality Red Clover. And prices are right—very fair indeed, for such extra-value seed. Order today!

ALSIKE

A "Sure-catch" Clover

Dependable for good stands. And this Hoffman "Extra" Alsike is finest quality seed. Clean of foul weeds. Tested. Sure to grow. Seeds being small, Alsike goes farther at seeding-time. Not nearly so high-priced this year. Sales are heavier than normal. Prompt orders are urged.

HARDY ALFALFA SEED

The Most Prolific Strains

And offered at mighty fair prices, considering the scarcity of such top-notch seed. Don't delay ordering your alfalfa seed! We say this sincerely.

The famous Hoffman "Northwest" seed gains many new friends every year. Has a great host of users who find it their most profitable producer . . . The "Canadian Variegated" is also popular this year—also a proven strain. Consult Price List. But order your alfalfa seed without delay. And order Hoffman's—it will please you best.

TIMOTHY SEED

For just the plain, cleanest, soundest-growing, heaviest-yielding Timothy—sow Hoffman's "Farmers' Choice" brand. It is just what you want. And for its extra-quality, the price is certainly right.

If you like Alsike clover in with your Timothy, sow our 20% mixture of it. Costs very little more, and you get a dependable clover started along with your Timothy.

"ECONOMICAL MIXTURE"

Made of about half Red Clover, quarter Alsike clover, quarter Timothy. A great many people are buying this famous blend this year. It is made right here by ourselves. And only good-quality seeds are used. Clean of foul weeds. Tested for sound germination.

Does save its user something in his seed bill. It certainly has brought in many fine letters of praise from folks who use it year after year, and get good crops of mixed hay.

SEED OATS

Best plan would be to refer to your new Hoffman catalog for variety details. Then order your seed oats to come right along with your grass seeds. These Hoffman Oats are all proven strains, after many years of success throughout the east and north. They have made exceptional yields. No doubt about it—it pays to put new blood into your seed oats if you sow a proven strain. It tells in the crop! We await your kind orders.

Not too early to order your Hoffman's Seed Corn NOW. . . . Quality is fine. 15 varieties. See catalog.

Read the price list on the other side of this folder. Send in your order now! Don't delay! For full information on farm seeds, see your New 1937 Hoffman Catalog.

A. H. HOFFMAN, INC.

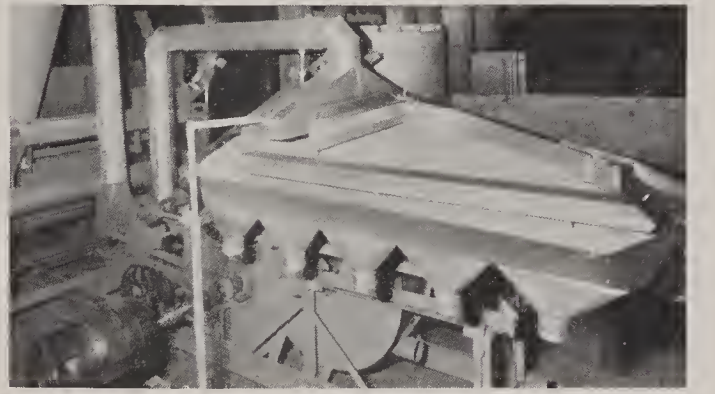
LANDISVILLE (Lancaster County), PENNA.

HERE YOU SEE DEFINITE REASONS WHY HOFFMAN'S SEEDS MAKE GOOD CROPS

The microscope and magnifiers see what the human eye connot detect. Hoffman's Seeds ore carefully analyzed to avoid weed seeds, and other foreign motter.

That it pays to plant good seed is more than just an idea. The testimony of 80,000 farmers using Hoffman seed through the past 38 years, proves beyond a doubt that if you are careful to plant good seed, you will get bigger crops.

To do best for you—your seeds must be selected as to origin, and suited to your section—then tested for germination, and certainly free from foul weeds.



Here's the very last word in cleaning equipment. Just installed this year. A much improved process for getting rid of weeds. Insures your getting clean seed. Certain to uphold the 38-year record of Hoffman's superior quality.

Here is o view inside our electric germinator. It is used to test how Hoffman's Seeds grow.
